It Works!

. . . a special *VocEd* section by teachers and for teachers . . . Here's your chance to tell the story of what works for you!

We are looking for innovative ideas that have brought teachers success in the classroom and laboratory . . . success in working with advisory councils and employers . . . success in getting the help and support teachers need from parents, community and colleagues . . . success in developing excellence in vocational programs.

We want manuscripts that will help teachers do their jobs better.

If you have a practical idea that works, share it with *VocEd* readers. Tell your story informally, using the first-person. Send us from two to four pages of text (typewritten and double-spaced) and a few clear black-and-white photos of people in action.

Mail your manuscript to: It Works!
